PROFESSIONAL SUMMARY

Technology professional specializing in Data Management and E-commerce Operations. Proven track record in structuring digital workflows, optimizing processes for data integrity, and leveraging branding for high-end markets. Expert in managing technical assets, from database administration and information security to the end-to-end management of e-commerce platforms. Combines technical proficiency in tools like PostgreSQL, GitHub, and Shopify with a strategic vision for operational efficiency and user experience.

PROFESSIONAL EXPERIENCE

Founder / Hardware & Infrastructure Specialist | TaskRevolution

2023 – Present

- Infrastructure:** Management of high-end e-commerce, including domain administration and import logistics.
- Operations & IT:** Implementation of agile workflows (GitHub/Trello), backup automation, and security protocols.
- Technical Design & UI:** Creation of user interfaces (UI) and high-fidelity 3D asset modeling using Blender.
- Support & Results:** Advanced technical consulting, thermal optimization, and low-latency remote support.

Information Management & Website Administrator | Curso Albert

2024 – 2025

- Database Management:** Structuring and organizing databases and corporate media archives.
- Website Administration:** Continuous site administration, ensuring stability and performance.
- Educational Content Creation:** Production and curation of video lessons and educational snippets for engagement.

Computing Specialist / Financial Controller | UNIFAEI

2023 – 2024

- Computing & Infrastructure:** Advanced hardware support, infrastructure maintenance, and system calibration.
- Data Management:** Development of file structuring routines and mitigation of digital risks.
- Financial Control:** Strategic management, predictive revenue analysis, and direct support to executive leadership.
- Cash & Arrears Management:** Rigorous control of accounts receivable, delinquency, and payments.

Customer Service | NOVA CONSIG

2020 – 2021

- Support & Service:** Consultative service focused on prospecting and customer satisfaction.
- Problem Solving:** Agile needs assessment and assertive resolution of operational issues.

TECHNICAL SKILLS

- Data & Tools:** PostgreSQL, Google Workspace, GitHub, Trello, Miro, WinDirStat, DMDE.
- Web Platforms:** Shopify, Wix, WordPress, GoDaddy.
- Design & Prototyping:** Blender, Figma, Canva, Clipchamp.
- Compliance & Security:** LGPD, IT Security Fundamentals, Backup & Recovery.

CORE COMPETENCIES

- Data Management:** Database administration (PostgreSQL), data structuring, information security (LGPD compliance), and systematic backup protocols.
- E-commerce & Web:** Platform management (Shopify, Wix, WordPress), logistics coordination, domain administration, and SEO-oriented content curation.
- Operations & Workflow:** Process automation, agile project management (GitHub, Trello, Miro), inventory control, and technical documentation.
- Technical Design:** UI/UX design (Figma), 3D asset modeling (Blender) for branding, and visual identity implementation.

EDUCATION

- BSc in Database Management** | Universidade Cruzeiro do Sul | **Expected completion: 2027**
- High School Diploma** | Escola Politécnica Brasileira | **Completed: 2023**
