Brasilia, Federal District, +55(61)99929-6475, alfernandesjr@gmail.com

[linkedin.com/in/alfernandesjr/](https://www.linkedin.com/in/alfernandesjr/) | github.com/alfernandesjr

Technology professional with over 5 years of practical experience in the assembly, maintenance, and optimization of high-performance (High-End) systems and digital infrastructure. Founder of TaskRevolution, with a strategic focus on technical consulting, specialized high-stability support, and operational management. Combines expertise in advanced hardware diagnostics, cooling solutions, and benchmarking with solid experience in database administration, information security, and web platform maintenance. Focused on structuring efficient routines that ensure data integrity, system stability, and maximum efficiency in processing technological assets.

PROFESSIONAL EXPERIENCE

- Founder / Hardware & Infrastructure Specialist | TaskRevolution** 2023 – Present
- Infrastructure:** Management of high-end e-commerce, including domain administration and import logistics.
 - Operations & IT:** Implementation of agile workflows (GitHub/Trello), backup automation, and security protocols.
 - Technical Design & UI:** Creation of user interfaces (UI) and high-fidelity 3D asset modeling using Blender.
 - Support & Results:** Advanced technical consulting, thermal optimization, and low-latency remote support.
- Information Management & Website Administrator | Curso Albert** 2024 – 2025
- Database Management:** Structuring and organizing databases and corporate media archives.
 - Website Administration:** Continuous site administration, ensuring stability and performance.
 - Educational Content Creation:** Production and curation of video lessons and educational snippets for engagement.
- Computing Specialist / Financial Controller | UNIFAEI** 2023 – 2024
- Computing & Infrastructure:** Advanced hardware support, infrastructure maintenance, and system calibration.
 - Data Management:** Development of file structuring routines and mitigation of digital risks.
 - Financial Control:** Strategic management, predictive revenue analysis, and direct support to executive leadership.
 - Cash & Arrears Management:** Rigorous control of accounts receivable, delinquency, and payments.
- Customer Service | NOVA CONSIG** 2020 – 2021
- Support & Service:** Consultative service focused on prospecting and customer satisfaction.
 - Problem Solving:** Agile needs assessment and assertive resolution of operational issues.

TECHNICAL SKILLS

- Hardware Engineering & Assembly:** Enthusiast-level builds with focus on aesthetics and airflow; Thermal management and AIO system installation; Parts curation and compatibility analysis; Professional cable management.
- Optimization & Performance:** BIOS tuning (XMP, DOCP, and Resizable BAR activation); Stability benchmarking (3DMark and Cinebench); Real-time sensor monitoring (MSI Afterburner, AIDA64).
- Support & Technical Diagnostics:** Advanced hardware diagnostics and remote technical support; Driver maintenance with deep cleaning (DDU); Translation of complex technical terms into accessible language.
- Project & Operations Management:** Information security, backup automation, and drive sanitization (DBAN/DMDE); Disk integrity testing (CrystalDiskMark); Space analysis and management (WinDirStat).
- Data & Storage Management:** E-commerce structuring, import logistics, and domain management; Technical documentation, inventory control, and versioning (GitHub, Trello, Miro); Problem-solving and team management.
- Technical Design:** Utilization of Blender for 3D modeling, creation of high-fidelity visual assets, and User Interface (UI) design.

EDUCATION

- BSc in Database Management** | Universidade Cruzeiro do Sul | **Expected completion: 2027**
- High School Diploma** | Escola Politécnica Brasileira | **Completed: 2023**

CERTIFICATIONS

- Digital Forensics – Cruzeiro do Sul University (2026)**
- General Data Protection Law (LGPD) – Fundação Bradesco (2026)**
- Information Technology Security – Fundação Bradesco (2026)**
- AI Solutions for GitHub – Fundação Bradesco (2026)**
- IT Fundamentals: Hardware and Software – Fundação Bradesco (2022)**
- Advanced English I – Online Courses Certificate (2021)**
